

CATAPALLOVR

Practice the dangerous moments before they hit the floor.

Standard training documents the happy path. REHEARSE lets your people rehearse the near-miss, the worst-case, and the high-consequence procedure in immersive VR – until the right response is automatic, long before they ever face it for real.

HOW IT WORKS

CAPTURE KNOWLEDGE

Preserve SOPs, troubleshooting methods, and tribal knowledge before it walks out the door.

REHEARSE RISK

Practice lockout/tagout, confined space entry, chemical handling, and emergency procedures.

VERIFY READINESS

Measure competency and confidence before employees ever touch real equipment.

THE OUTCOMES

FASTER ONBOARDING

New hires reach productivity sooner.

AUDIT READY

Documented training and competency.

CONSISTENT TRAINING

Every operator trained the same way.

FEWER COSTLY MISTAKES

Practice mistakes safely in VR.
